MANUAL GEAR AND DIFFERENTIAL ENHANCER

Extreme Protection for Your Manual Gear & Transmission

DESCRIPTION

MANUAL GEAR AND DIFFERENTIAL ENHANCER is a supplement designed for use in transportation and industrial gear boxes. The product will reduce noise, friction and heat, as well as extend the life of the oil.

BENEFITS

- Reduces wear, heat, and noise
- Protects against corrosion and moisture contamination
- Reduces parasitic friction present in all gear systems
- Protects seals from aging, drying, and cracking
- Extends lubricant life and serviceability
- Increases lubrication film strength up to 230,000 psi
- Eco-friendly and non-reportable
- Creates extra protection in extreme environments
- May be used in all known lubricants of any weight including synthetics
- For use in manual transmissions, differentials, wet wheel bearings, and gear boxes

APPLICATIONS

Transportation • Agriculture • Construction • Marine • Industrial

TECHNICAL

- **Mix Ratio:** 5% per Volume
